

ADDENDA

Phylum **ARTHROPODA**

Order AMPHIPODA

NOTOTROPIS GUTTATUS (Costa) [*Chevreaux and Fage, 1925, p. 194*]
One male, Station L4, 10.4.57 (G.M.S.)

Order SCHIZOPODA

GASTROSACCUS LOBATUS Nouvel [*O. S. Tattersall, 1957*]

Lately separated from *G. normani* by Nouvel (1951). Some of the material from Plymouth has been re-examined and found to consist of both *normani* and *lobatus*. The two regularly occur in company, *lobatus* relatively more abundant closer inshore (O.S.T.)

Phylum **CHORDATA**

Class **PISCES**

GADUS POUTASSOU Risso [Int. Coun. 175] "Poutassou"

Two specimens, both 17.5 cm. long, trawled with fine mesh cover on cod-end, west of Rame Head, 9.4.57 (P.G.C.)

GASTEROSTEUS ACULEATUS L. [*Day, 1880-4, I, p. 238, Pl. 68, 1-3; Poll, 1947, p. 354; Int. Coun. 372*]
"Three-spined Stickleback"

Chelson Meadows, in brackish ditches (G.M.S.)
